Both central areas have been built in keeping with our other properties with open, thatched space allowing guests to relax and enjoy the natural surroundings, whilst watching wildlife and birds from the comfort of an armchair or the bar. The swimming pool and curio shop at each camp complete the luxurious, relaxed feel that Under One Botswana Sky safaris are known for.

GAME VIEWING:

Since this area normally receives floods last it contains some of the closest dry-season watering points for the game that spreads out towards Nxai and Makgadikgadi Pans during the rains. Around this, there is a high density of game in the dry season but since quite a lot of the reserve is mopane woodlands (a favourite location for animals during the rains and early dry season) good game viewing is expected all year round.

This river system attracts a wide variety of game. Familiar favourites include: Elephant, Buffalo, Giraffe, Kudu, Impala, Tsessebe, Hippo, Crocodile, Genet, Honey Badger and a host of Plains Game. Rare Antelope breeds including Roan, Sable & Eland, not normally seen in the Okavango region, occur here. As the Gomoti is the main water source in the area, Lion, Leopard, Cheetah and Wild Dog come down to the riverside to drink and hunt, of course! The locations and views are spectacular with the classic flooding of the Okavango across the adjacent seasonal floodplains. For those keen on bird-watching, the combination of the wetlands and the drier Acacia and Mopane veldt provide a perfect habitat for a variety of aquatic species including Open Billed Storks, Hammerkops, Egrets, Ibis and forest/savannah dwellers including Raptors, Shrikes, Drongos, Sunbirds, Ground Hornbills and so on.
